

## Central VA 6 Meter SSB Net

Date \_\_\_\_\_

Dear \_\_\_\_\_

On behalf of the founders and myself, thank you for your recent check-in to the Central Virginia 6 Meter SSB Net. This net was formed in late October of 2005 with seven original founding members.

The net is held each day on 50.215 Mhz., upper sideband, from 8:00 AM to 9:00 AM eastern time. The purpose of the net is to promote Amateur Radio, provide information of interest to the net and “Rag Chew.” When applying for a membership certificate, individuals are requested to submit to the net manager a log showing the dates of their participation. A log sheet is provided with this letter for you to record your participation. Please send the completed log sheet to the net manager including your call sign, name and address.

Requirements for membership are simply to check in twenty-four times within a twelve month period. You will receive a beautiful **Certificate of Membership**, suitable for framing, in recognition of your participation in our net. You can also find us on the Internet at [www.50215.net](http://www.50215.net) where you will find many useful features and information. I encourage you to log into the web site to learn more about our net and our members.

Thank you again and we hope you enjoyed being in the net and that you will check in frequently and become a member.

Ralph , W4FEG
